HAS MULTIPLE
POSSIBILITIES”**

PSX Flatbed-trailer, thought of everything

Anssems developed the PSX series with the needs of the professional user in mind. The PSX flatbed trailers have a distinctive character due to their generous standard equipment. The side and rear panels fold beneath the loading floor for ease of loading and unloading with a forklift.

PSX single-axle unbraked

PSX tandem braked

PSX single-axle braked

PSX Go-Getter tandem braked

A strong chassis lies at the basis of the PSX. The cross members ensure optimum support for the loading floor. The high-quality finish, lighting, jockey wheel, axles, coupling, and braking system are all of premium quality. To create a maximum flat loading platform, remove the aluminium side panels and corner posts.

PSX Go-Getter

The PSX Go-Getter is a flatbed trailer for those who want to stand out. It has many extras, such as a black toolbox (40L) on A-frame, black rims, black aluminium panels and is fully equipped with LED lighting. Get your Go-Getter today!

Optimum floor support

Reliable brake system

Clear lighting at front, side and back

8 tie down hooks at the innerside of the loading surface

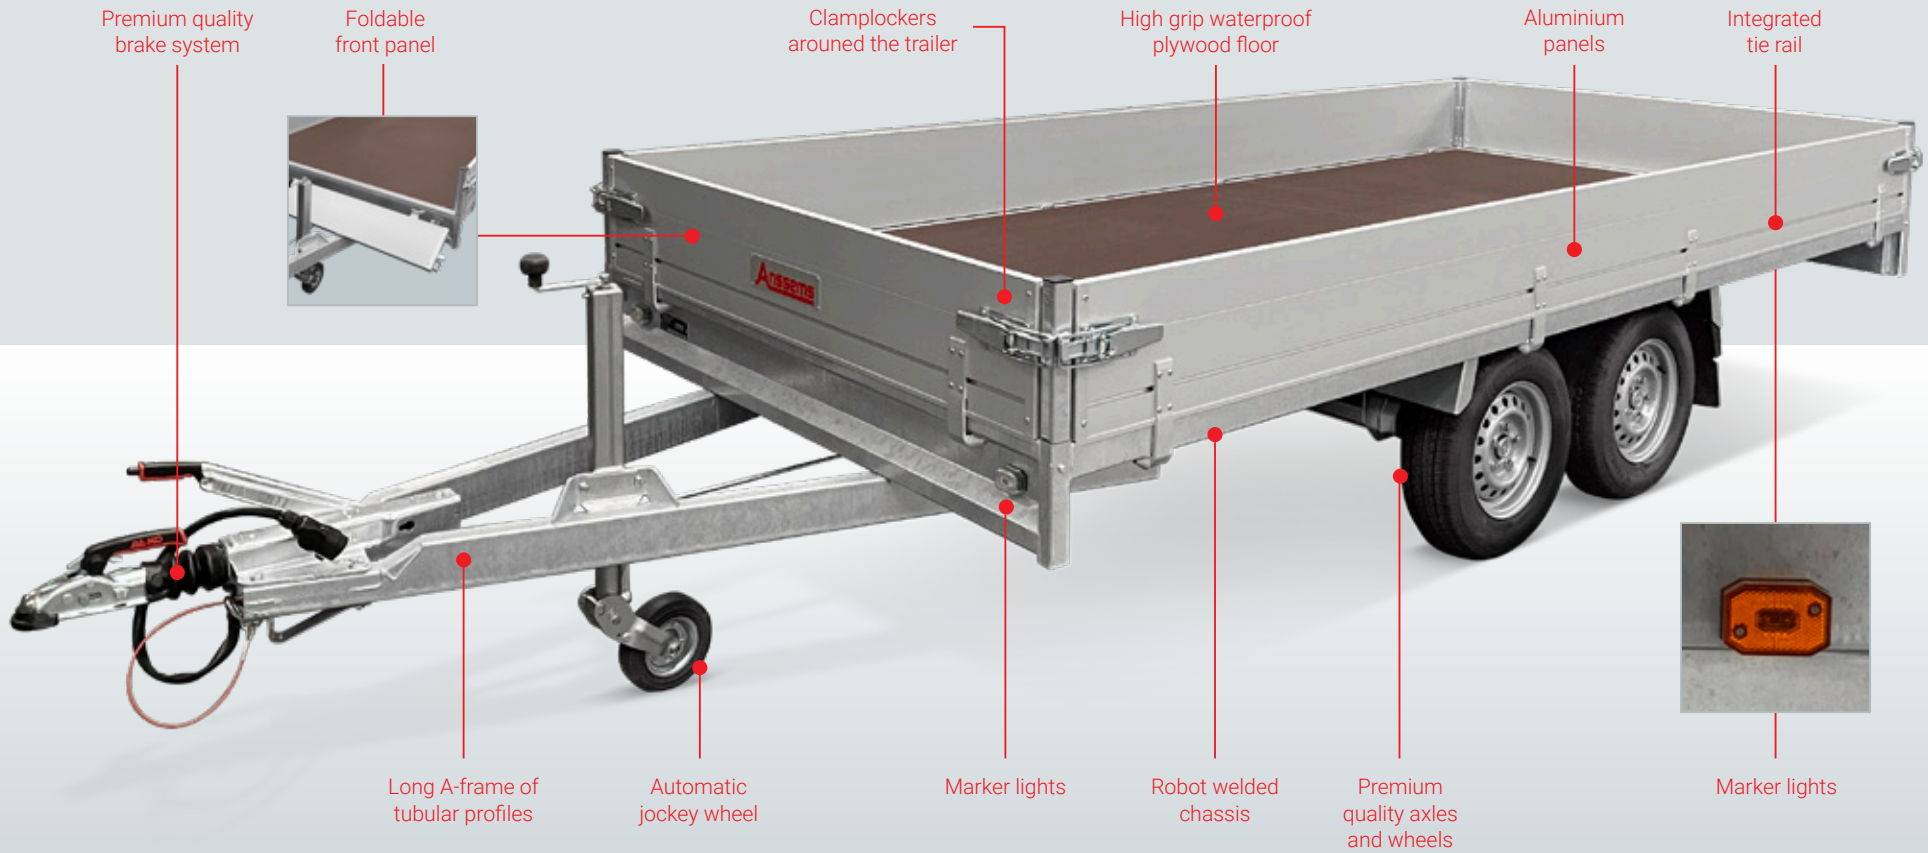

Pull-out beams for back panel support

Tie rail for movable tie hooks

Panels that rotate below the floor. Damage-free loading and unloading.

Anssems

Customize your Anssems PSX

The PSX accessories create numerous possibilities for arranging the flatbed trailer to perfectly suit your individual needs. Extension side panels or mesh sides for increased volume, a high cover to protect the cargo, or a steel ladder rack for more tie-down options - all PSX models come with multiple tie-down points to help keep your load secure.

**“MY ANSSEMS PSX-2500
IS A PIECE OF CUSTOMIZATION”**

Create extra load volume with the mesh sides; the 70 cm extended weldmesh are placed on the standard 30 cm side panels, creating a total of 100 cm side protection.

Additional loading options can be achieved by mounting the extension sides, increasing the height of the side panels to a total of 65 cm, an extra 35 cm.

Mount a ladder rack for extra tie-down options and cargo support; very useful when transporting high-volume cargo.

Accessorie:
Sustainable flat cover

Accessorie:
Shock absorbers

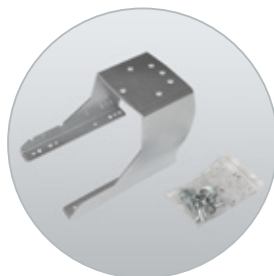

Accessorie:
Net hooks for in rail

Accessorie:
Propstands

Accessorie:
Aluminium ramps

The steel high cover frame, in combination with its aluminium slats and sustainable tarpaulin, creates a perfect Anssems high cover.
